Beyond Sunday Morning

"Every day is a renewal, every morning the daily miracle. This joy you feel is life."

-- Gertrude Stein

"Every single cell in the human body replaces itself over a period of seven years. That means there's not even the smallest part of you now that was part of you seven years ago."

-- Steven Hall

"True, it's not over till it's over. And even when it's over, it just begins again."

-- Kate McGahan

UU Principles

Unitarian Universalist congregations affirm and promote seven Principles, which we hold as strong values and moral guides.

1st Principle: The inherent worth and dignity of every person;

2nd Principle: Justice, equity and compassion in human relations;

3rd Principle: Acceptance of one another and encouragement to spiritual growth in our congregations;

4th Principle: A free and responsible search for truth and meaning;

5th Principle: The right of conscience and the use of the democratic process within our congregations and in society at large;

6th Principle: The goal of world community with peace, liberty, and justice for all;

7th Principle: Respect for the interdependent web of all existence of which we are a part.

UU Sources

We live out our Principles within a "living tradition" of wisdom and spirituality, drawn from sources as diverse as science, poetry, scripture, and personal experience. These are the six sources our congregations affirm and promote:

Direct experience of that transcending mystery and wonder, affirmed in all cultures, which moves us to a renewal of the spirit and an openness to the forces which create and uphold life;

Words and deeds of prophetic people which challenge us to confront powers and structures of evil with justice, compassion, and the transforming power of love;

Wisdom from the world's religions which inspires us in our ethical and spiritual life;

Jewish and Christian teachings which call us to respond to God's love by loving our neighbors as ourselves;

Humanist teachings which counsel us to heed the guidance of reason and the results of science, and warn us against idolatries of the mind and spirit;

Spiritual teachings of Earth-centered traditions which celebrate the sacred circle of life and instruct us to live in harmony with the rhythms of nature.
